NEW BUSINESS:

- 1. Planning Commission Recommendation 25-01 on the requested Variance by Daniel Gerber, Petitioner, and Owner.** *This request comes from the owner of 323 Park Street who wants to install a concrete driveway in front of and to the side of his house. Due to the narrow lot width, he is forced to locate the driveway up to his side lot line. The zoning ordinance requires all concrete to be located a minimum of 5' off the sideline. This is to ensure that any drainage from the impervious surface can be absorbed on the owner's property and not subject the neighbor to the additional drainage. If they can address the drainage to prevent it from going onto the neighbor's property, the variance could be granted. There are several driveways on the block with similar small to zero sideline setbacks.*
